Each of these certifications, representing approximately 300 hours of coursework and the completion of 5 projects to prove you learned the information.

FREELANCE AND PERSONAL:

Project Icarus - Creator/Owner

<http://www.projecticarus.net>

Project Icarus is my personal web development company. I use it as an extra form of revenue/side project.

Sweat Lock - Web Developer

<http://www.wearsweatlock.com>

Website I built for a client wanting something nice but on a low budget.

WebPro360

Project Manager/ Creative Director

June 2018 – September 2018

Collabrated with a team to build

<https://www.monumentalstairspecialists.com/> and remodeled **<https://www.webpro360.com>**. I also helped with marketing and company rebranding, and updating (converting everything to git on bitbucket).
